

## Hand Operated Curtain Track System

# Silent Gliss® 1290

### Product Information

- Versatile wall and ceiling fix hand operated curtain track for medium to heavy weight curtains in domestic and especially contract applications.
- Elegant, yet strong profile with concealed channel. It can be bent to a radius of 15 cm.
- Outstanding gliding properties with patented roller glider running on the rim of the front channel. This frictionless system is unmatched in its smooth and easy operation.
- Efficient inserting of gliders into channel with optionally available gliders in strip form.
- Easy ceiling or wall fix (click-in profiles) to all surfaces.
- Standard colours: anodised aluminium or white powder coated.
- Custom paint colours on application.
- Standard length of the profiles are 6 m.
- Systems can be planned to unlimited lengths due to a special connecting bridge.
- Large and attractive fabric offer.
